

Outlook for the trade fair year 2023

stoba Customized Machinery exhibits at four trade fairs worldwide in 2023

Memmingen, January 30th 2023. Following a successful trade fair year in 2022, stoba Customized Machinery will again be represented at numerous trade fairs in 2023, presenting the latest innovations in laser and (P-) ECM to visitors. A total of four trade fairs are already being planned - including three trade fairs and one career fair. Trade fair tickets can be requested in advance from Christin Müller (christin.mueller@stoba-Memmingen.de).

The experts at stoba Customized Machinery are looking forward to exciting discussions and a lively exchange at the following trade fairs:

FreiraumMesse in Memmingen (DE)

February 11, 2023

At this fair, employees and employers have the chance to exchange ideas for one day. Not only the job search, but also career advancement, as well as training and further education are central topics of the fair. A large number of attractive employers from the region, training providers and professional coaches will be on hand to provide individual advice. Appointments for a personal meeting can be arranged in advance at <https://www.mattfeldt-saenger.de/FreiraumMesse/Besucher>.

CIMT in Beijing (CHN)

April 10 to April 15, 2023

The 18th China International Machine Tool Trade Fair is coming up in 2023. As one of the four largest machine tool trade fairs in the world, it offers a wide range of information and exchange opportunities with experts and interested parties from all over the world. More than 120,000 visitors met over 1,500 exhibitors here at the last exhibition in 2021.

Laser World of Photonics in Munich (DE)

June 27 to June 30, 2023

Laser World of Photonics, already the 26th leading trade fair for photonics components, systems and applications, is coming up this summer. It presents the world market and shows a combination of research, innovative technology and application. In forums, panels and exclusive round table discussions with participants from all branches of industry, you can find out more.

Deburring Expo, Karlsruhe

October 10 to October 12, 2023

The leading trade fair for deburring technologies and precision surfaces in Europe offers a unique overview of the current state of the art in technology, development, processes, quality assurance and services. With little time spent, you can find out about current trends. Goal-oriented discussions with industry experts will help you to find the best solution for your concern.

About stoba:

stoba is a group of companies with the technology areas of precision technology and customized machinery for various markets. Founded in 1961 in Backnang, Baden-Württemberg, the group of companies is now represented by more than 1,000 employees at seven locations worldwide (Backnang, Memmingen, Weinstadt, Brno, Charleston, Small Dole, Yantai). stoba stands for quality tested over many years, individual customer-oriented solutions and ambitious visionary innovations for the future.
